FORM 2
MCH BUDGET DETAILS FOR FY 2010

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: CA

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 43,328,678

A.Preventive and primary care for children:

\$ 13,463,557 (31.07%)

B.Children with special health care needs:

\$ 13,840,603 (31.94%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 2,817,982 (6.5%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 0

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 1,245,840,182

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 0

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 1,158,080,012

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 87,158,750

\$ 2,403,920,194

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 2,447,248,872

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 94,644

c. CISS: \$ 0

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 0

g. WIC: \$ 0

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

\$

\$

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 94,644

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 2,447,343,516

The original budgeted amounts were point in time estimates. Changes from the original projected level of expenditures are the result of changes in the target population, utilization changes, and policy changes. Additionally, CMS is no longer using one of the reports that they used in prior years for gathering of expenditure data. The reports used did not capture all of the expenditure data.
- 6. Section Number:** Form5_Main

- (1) Use occurrent births as denominator.
 (2) Report only those from resident births.
 (3) Use number of confirmed cases as denominator.

FORM NOTES FOR FORM 6

California provides the most current data available at the time the application was due. California anticipates that the 2008 data for this form will be available by March 2010.

California Department of Public Health, Genetic Disease Screening Program, 2007 Newborn and Prenatal Screening Records (SIS).

Newborn screening includes screening for the following eight conditions: PKU, congenital hypothyroidism, galactosemia, sickle cell disease, congenital adrenal hyperplasia, non-PKU inborn errors of metabolism tested by tandem mass spectrometry, cystic fibrosis and biotinidase deficiency. Cystic fibrosis and biotinidase deficiency were added in July 2007, so approximately 47% of the specimens for 2007 were tested for those two conditions.

When looking at trends, it is necessary to keep in mind that data prior to 2005 pertained to only the first four conditions, and that data for 2005 pertained to the first four for the entire year and to the last two for only the last six months of that year.

The number of confirmed MS/MS cases includes 4 cases screened negative that were late diagnosed and treated.
5. **Section Number:** Form6_Screening Programs for Older Children and Women
Field Name: OtherWomen
Row Name: All Rows
Column Name: All Columns
Year: 2010
Field Note:
Data source for Expanded Alpha Fetoprotein screening data: State of California, Department of Health Services, Genetic Disease Screening Program, 2007 Prenatal Screening Record.

Notes for Expanded Alpha Fetoprotein screening data: The expanded alpha fetoprotein screening test is an optional prenatal screening test that may be offered to pregnant women, but is not a necessary test for all women. The denominator equals the number of women who received this test regardless of residency.

Data Source for HIV Screening data: State of California, Department of Public Health, Office of AIDS. HIV Counseling and Testing Information System (HIV6). Includes data for Year 2007, reported and processed as of January 8, 2009.

Notes for HIV Screening Data:

1. The number screened only represents clients seen at publicly funded test sites in 2007; screening procedures conducted by blood banks, plasma centers, inmate facilities, military service, private testing sites or private medical providers are unavailable and not included in the totals.
2. Older children are defined as 13-19 years of age, women are defined as females 20-45 years of age.
3. EIA tests were conducted using either blood or oral fluid samples.
4. Data not available for the number of HIV presumptive positive screens because all serologically reactive cases are confirmed using Western Blot.
5. Data not available for the number needing treatment that received treatment because HIV counseling and testing data are limited to client demographics, risk profiles, test results and referrals given for follow-up services. Confirmation of actual service delivery was not obtained.
6. Preliminary positives without confirmatory tests are included in the number of confirmed cases because of the high sensitivity/specificity of the OraQuick Advanced test.

FORM NOTES FOR FORM 7

California provides the most current data available at the time the application was due. California anticipates that the 2008 data for this form will be available by March 2010.

FIELD LEVEL NOTES

1. **Section Number:** Form7_Main
Field Name: PregWomen_TS
Row Name: Pregnant Women
Column Name: Title V Total Served
Year: 2010

Field Note:

Estimate of the number of pregnant women served is based on the number of live births. Source: State of California, Department of Public Health, 2007 California Birth Statistical Master File. Tabulations (by place of residence) were done by the MCAH Program. Both expected source of payment for delivery and prenatal care coverage were used to determine "Primary Source of Coverage" for pregnant women. A woman who had Medi-Cal coverage for either prenatal care or delivery was considered covered by Title XIX. Codes are as follows: (B) Title XIX=Medi-Cal (02), [and Medi-Cal CPS(13) for prenatal care variable]; (C) Title XXI=no codes used; (D) Private/Other=all payment source codes except those used in (B), (E), and (F); (E) None=Medically unattended / No prenatal care (00), Self pay (09), and (F) Unknown=Unknown payment source (99). Some of the payment source codes used for (D) might include some persons for whom health coverage was actually "none" but could not be separated from "covered" persons within the pertinent codes.

The number of pregnant women served is assumed to include an estimated 29,859 served in MCAH programs in CY 2007: 7,951 in the Adolescent Family Life Program, 4,008 in the Black Infant Health program, and 17,900 in the California Diabetes and Pregnancy Program (CDAPP).

2. **Section Number:** Form7_Main
Field Name: Children_0_1_TS
Row Name: Infants <1 year of age
Column Name: Title V Total Served
Year: 2010

Field Note:

The number of infants less than one year of age is from CHDP program data for FY 2006-2007. Title XIX column includes Medi-Cal fee-for-service and Medi-Cal Managed Care with the latter from Information Only PM 160 Forms. The "None" column represents families of infants receiving state-funded health assessments and indicating they have no other health insurance coverage.

The number of infants less than 1 year of age is assumed to include an estimated 24,424 served by MCAH programs in CY 2007: 6,953 in the Adolescent Family Life Program; 1,985 in the Black Infant Health Program; and 15,486 in the California Diabetes and Pregnancy Program.

3. **Section Number:** Form7_Main
Field Name: Children_1_22_TS
Row Name: Children 1 to 22 years of age
Column Name: Title V Total Served
Year: 2010

Field Note:

The number of children 1 to 21 years is from CHDP data for FY 2006-07. Title XIX column includes Medi-Cal fee-for-service and Medi-Cal Managed Care with the latter from Information Only PM 160 Forms. The "None" column represents families of children 1 to 21 years receiving state-funded health assessments and indicating they have no other health insurance coverage. The current information system does not allow for an unduplicated count of HFP enrollees and children who received a CHDP service prior to enrolling in HF in the same year.

The number of children 1-21 years of age are assumed to include an estimated 16,239 served in MCAH programs in CY 2007: 10,598 in the Adolescent Family Life Program and 5,641 served in the Black Infant Health program.

4. **Section Number:** Form7_Main
Field Name: CSHCN_TS
Row Name: Children with Special Health Care Needs
Column Name: Title V Total Served
Year: 2010

Field Note:

The number of CSHCN and the percent with Medi-Cal or HF coverage are from CCS program, paid claims, and CMS Net data for FY 2007-08. State and county funds, which are equally shared, are included in Private/other and are estimated from CMS Net active cases.

5. **Section Number:** Form7_Main
Field Name: AllOthers_TS
Row Name: Others
Column Name: Title V Total Served
Year: 2010

Field Note:

Other service data not shown on Form 7 include an estimated 103,464 clients served by the California Battered Women Shelter Program in CY 2007. Some of these clients would be in rows 1-4 above. Others not reported here include families and communities served by the Fetal Infant Mortality Review program.

FORM NOTES FOR FORM 8

California provides the most current data available at the time the application was due. California anticipates that the 2008 data for this form will be available by March 2010.

For the number of Total deliveries, Title V deliveries, Total infants and Title V infants, the number of 2007 live births (by place of residence) was used as an estimate. For the number of "Deliveries Eligible for XIX" and "Infants Eligible for XIX" a subset of 2007 live births was used as an estimate (subset of all live births for which "expected source of payment for delivery"= Medi-Cal by place of residence). Race and Hispanic origin of mother were used for Section I and II respectively. Column D includes American Indian, Eskimo, and Aleutian. Column E includes Chinese, Japanese, Korean, Vietnamese, Cambodian, Thai, Laotian, Hmong, Asian Indian, Filipino, Asian-specified, and Asian-unspecified. Column F includes Hawaiian, Samoan, Guamanian, and other Pacific Islander. Data Source: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Data by race/ethnicity were analyzed using mother's multi-race code. Tabulations were done by the MCAH Program.

The discrepancy between this number and Form 7, total infants served under one year of age, is likely due in part to some infants enrolled in the CHDP program being identified for services more than once due to having more than one client index number or the infant being identified for services with both the mother's client index number and its own client index number. It can take several months after birth to rectify these client index number issues.

"Title V deliveries served" is assumed to include an estimated 24,084 served by MCAH programs in CY 2007: 6,953 in the Adolescent Family Life Program; 1,985 in the Black Infant Health Program; and 15,146 in the California Diabetes and Pregnancy Program.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2010
[SEC. 506(A)(1)]
STATE: CA

1. State MCH Administration:
(max 2500 characters)

Title V funds are administered by the MCAH Program and the Children's Medical Services (CMS) Branch in the State of California. The CMS Branch is part of the Department of Health Care Services. The MCAH Program is part of the Center for Family Health within the Department of Public Health. The Center for Family Health also includes the Women, Infants and Children (WIC) program, the Genetic Disease Screening Program, and the Office of Family Planning. The MCAH Program conducts statewide assessment of needs, develops policies, plans and programs to improve the health of women, infants, adolescents, and families in California utilizing the core public health functions. The CMS Branch is responsible for the Child Health and Disability Prevention Program (CHDP), California Children's Services (CCS), and the Genetically Handicapped Persons Program (GHPP). CCS is the Children with Special Health Care Needs (CSHCN) program.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 43,328,678
3. Unobligated balance (Line 2, Form 2)	\$ 0
4. State Funds (Line 3, Form 2)	\$ 1,245,840,182

9. Most significant providers receiving MCH funds:

61 local health depts; public/private universities
community-based organizations
private care clinics
CCS-approved providers

10. Individuals served by the Title V Program (Col. A, Form 3)

a. Pregnant Women	566,089
b. Infants < 1 year old	580,680
c. Children 1 to 22 years old	1,435,878
d. CSHCN	163,845
e. Others	0

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

Black Infant Health Program: Programs located in 17 local jurisdictions address community-based causes of Black infant mortality and low birthweight. Serves over 14,000 Black women, infants, children and their families annually. Adolescent Family Life Program: AFLP provides case management for over 17,000 pregnant and parenting teens and their partners to prevent/reduce subsequent pregnancies, improve pregnancy outcomes, and strengthen parenting skills. Domestic Violence Program: FY 05/06 was the beginning of the first year of a five-year grant cycle and consolidation of the direct services, prevention, and unserved/underserved (U/U) grants. All 94 shelters receive funding to provide shelter-based Direct Services, Prevention Activities and Outreach Activities to increase access to shelter-based services for unserved and underserved populations. Effective July 1, 2009, the DVP grants have been augmented and extended 2 years. The augmentation should sustain basic services and facilitate implementation of strategies to increase access for unserved/underserved populations. FY 08/09 marks the final year for the U/U Training and Technical assistance (TAT) project. U/U TAT contractors will finalize the project evaluation; reporting an overall increase in numbers of U/U clients receiving domestic violence services. U/U populations include, Disabled/Developmentally Disabled; women experiencing Substance Abuse and Mental Health Issues; and the lesbian, gay, bisexual, and transgender community. California Children's Services and Genetically Handicapped Persons Program: CCS case manages the eligible condition for children in CCS and GHPP. Case management and specialty referral ensure that children with complex health and psycho-social needs have access to multi-disciplinary, coordinated evaluation and treatment from specialists in tertiary Pediatric Special Care Centers.

b. Population-Based Services:
(max 2500 characters)

Sudden Infant Death Syndrome (SIDS) Program: Coordinates SIDS services through data collection and analysis, support services to families and child care providers, education and training for parents, coroners, nurses, first responders and child care providers, conducts the Back to Sleep campaign. Breastfeeding Strategic Plan: Defines specific activities to be carried out by the MCAH Program and CMS Branches in coordination with MCAH programs like AFLP and BIH and State and local agencies such as WIC. Childhood Injury Prevention Program: Promotes public awareness of the preventable nature of injuries, develops coalitions at the local, State, and regional levels, and provides technical assistance to State and local programs. Birth Defects Monitoring Program: Collects and analyzes data on children with birth defects. Newborn Genetic Screening and Expanded Alpha Fetoprotein Programs: Screen for congenital primary hypothyroidism, galactosemia, phenylketonuria, and sickle cell disease and other hemoglobinopathies; and offer prenatal screening to detect neural tube defects, and other fetal abnormalities. Newborn Hearing Screening Program: Conducts hearing screening for all infants born in CCS-approved hospitals statewide.

c. Infrastructure Building Services:
(max 2500 characters)

Local MCAH Programs: The MCAH Program contracts with 58 counties and 3 city health jurisdictions to support the infrastructure at local health departments to promote the health and well being of all women of childbearing age, infants, children, and adolescents. Services include a toll-free telephone system; perinatal outreach and education; perinatal provider networks; monitoring and public education on children's issues, including injury and family violence prevention, and data collection. Fetal Infant Mortality Review Program: There are 17 FIMR projects that cover 17 counties in California where communities have set up an infant death review system to identify, evaluate, and determine potential factors that contribute to preventable infant death. Development of CMS Net: The CMS Branch continues implementation of an integrated statewide data system, CMS Net. This case management system is allowing tracking of health services and outcomes for CSHCN, monitoring quality standards, and providing a basis for

policy development. Linkage of this system with other State data systems is in progress and will improve management and epidemiologic capabilities.

FORM 11
TRACKING PERFORMANCE MEASURES
[SECS 485 (2)(2)(B)(iii) AND 486 (A)(2)(A)(iii)]
STATE: CA

Form Level Notes for Form 11

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Performance Measures will be available by March 2010.

PERFORMANCE MEASURE # 01

The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008
Annual Performance Objective	99	99.5	100	99.5	100
Annual Indicator	100.0	99.2	100.0	100.0	
Numerator	391	478	566	609	
Denominator	391	482	566	609	
Data Source					Genetic Disease Screening Program, 2007
<p>Check this box if you cannot report the numerator because</p> <p>1. There are fewer than 5 events over the last year, and</p> <p>2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.</p> <p>(Explain data in a year note. See Guidance, Appendix IX.)</p>					
Is the Data Provisional or Final?				Final	Provisional

Annual Objective and Performance Data					
	2009	2010	2011	2012	2013
Annual Performance Objective	100	100	100	100	100
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Form11_Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2008

Field Note:

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form11_Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2007

Field Note:

State of California, Department of Public Health, Genetic Disease Screening Program, 2007 Newborn Screening Records.

Newborn screening includes screening for the following six conditions: PKU, congenital hypothyroidism, galactosemia, sickle cell disease, congenital adrenal hyperplasia, and non-PKU inborn errors of metabolism tested by tandem mass spectrometry. In addition, in July 2007 two more conditions were added to the screening: cystic fibrosis and biotinidase deficiency. In 2007, 47% of the screenings included these two newly included conditions.

When looking at trends, it is necessary to keep in mind that data prior to 2005 pertained to only the first four conditions, and that data for 2005 pertained to the first four for the entire year and to the last two for only the last six months of that year.

3. Section Number: Form11_Performance Measure #1

Field Name: PM01

Row Name:

Column Name:

Year: 2006

Field Note:

State of California, Department of Public Health, Genetic Disease Screening Program, 2006 Newborn Screening Records

Newborn screening includes screening for the following six conditions: PKU, congenital hypothyroidism, galactosemia, sickle cell disease, congenital adrenal hyperplasia, and non-PKU inborn errors of metabolism tested by tandem mass spectrometry. When looking at trends, it is necessary to keep in mind that data prior to 2005 pertained to only the first four conditions, and that data for 2005 pertained to the first four for the entire year and to the last two for only the last six months of that year.

PERFORMANCE MEASURE # 02

The percent of children with special health care needs age 0 to 18 years whose families partner in decision making at all levels and are satisfied with the services they receive. (CSHCN survey)

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008
Annual Performance Objective	49.5	50.5	51.5	52.5	52.5
Annual Indicator	47.6	47.6	47.6	46.6	46.6
Numerator					
Denominator					
Data Source					National Survey of CSHCN
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)

Denominator					

Field Level Notes**1. Section Number:** Form11_Performance Measure #2**Field Name:** PM02**Row Name:****Column Name:****Year:** 2008**Field Note:**

This measure is the percent of CSHCN age 0 to 18 years whose families partner in decision-making at all levels and are satisfied with the services they receive.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM02 indicator for both the 2001 and the 2005-2006 CSHCN survey.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005-06.

2. Section Number: Form11_Performance Measure #2**Field Name:** PM02**Row Name:****Column Name:****Year:** 2007**Field Note:**

Section Number: Performance Measure #2

Field Name: PM02

Row Name:

Column Name:

Year: 2007

Field Note:

This measure is the percent of CSHCN age 0 to 18 years whose families partner in decision-making at all levels and are satisfied with the services they receive.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. The same questions were used to generate the NPM02 indicator for both the 2001 and the 2005-2006 CSHCN survey.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005-06.

3. Section Number: Form11_Performance Measure #2**Field Name:** PM02**Row Name:****Column Name:****Year:** 2006**Field Note:**

The 2006 indicator is pre-populated from 2002 and is based on the State estimates from SLAITS.

This measure is the percent of CSHCN age 0 to 18 years whose families partner in decision-making at all levels and are satisfied with the services they receive.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2001.

PERFORMANCE MEASURE # 03

The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)

<u>Annual Objective and Performance Data</u>					
	2004	2005	2006	2007	2008

Denominator					

Field Level Notes**1. Section Number:** Form11_Performance Measure #3**Field Name:** PM03**Row Name:****Column Name:****Year:** 2008**Field Note:**

This measure is the percent of CSHCN in the State age 0 to 18 years who receive coordinated, ongoing, comprehensive care within a medical home.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions and additions to the questions used to generate the NPM03 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #03.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005 - 06.

2. Section Number: Form11_Performance Measure #3**Field Name:** PM03**Row Name:****Column Name:****Year:** 2007**Field Note:**

Section Number: Performance Measure #3

Field Name: PM03

Row Name:

Column Name:

Year: 2007

Field Note:

This measure is the percent of CSHCN in the State age 0 to 18 years who receive coordinated, ongoing, comprehensive care within a medical home.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions and additions to the questions used to generate the NPM03 indicator for the 2005-2006 CSHCN survey. The data for the two surveys are not comparable for PM #03.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005 - 06.

3. Section Number: Form11_Performance Measure #3**Field Name:** PM03**Row Name:****Column Name:****Year:** 2006**Field Note:**

The data reported in 2002 have pre-populated the data for 2006 for this performance measure and is based on the State estimates from SLAITS.

This measure is the percent of CSHCN in the State age 0 to 18 years who receive coordinated, ongoing, comprehensive care within a medical home.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2001.

PERFORMANCE MEASURE # 04

The percent of children with special health care needs age 0 to 18 whose families have adequate private and/or public insurance to pay for the services they need. (CSHCN Survey)

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008
Annual Performance Objective	62.5	64.5	65.5	68.5	65.5

Field Level Notes**1. Section Number:** Form11_Performance Measure #6**Field Name:** PM06**Row Name:****Column Name:****Year:** 2008**Field Note:**

This measure is the percent of youth with special health care needs in California who receive the services necessary to make transitions to all aspects of adult life.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005-06.

2. Section Number: Form11_Performance Measure #6**Field Name:** PM06**Row Name:****Column Name:****Year:** 2007**Field Note:**

Section Number: Performance Measure #6

Field Name: PM06**Row Name:****Column Name:****Year:** 2007**Field Note:**

This measure is the percent of youth with special health care needs in California who receive the services necessary to make transitions to all aspects of adult life.

Indicator data comes from the National Survey of CSHCN, conducted by HRSA and CDC, 2005-2006. Compared to the 2001 CSHCN survey, there were wording changes, skip pattern revisions, and additions to the questions used to generate the NPM06 indicator for the 2005-2006 CSHCN survey. There were also issues around the reliability of the 2001 data because of the sample size. The data for the two surveys are not comparable for PM #06 and the 2005-2006 may be considered baseline data.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2005-06.

3. Section Number: Form11_Performance Measure #6**Field Name:** PM06**Row Name:****Column Name:****Year:** 2006**Field Note:**

The data reported in 2002 have pre-populated the data for 2006 for this performance measure.

This measure is the percent of youth with special health care needs in the country who receive the services necessary to make transitions to all aspects of adult life.

Source of Data is Centers for Disease Control and Prevention, National Center for Health Statistics, State and Local Area Integrated Telephone Survey, National Survey of Children with Special Health Care Needs, 2001.

Because only one of the States (Maine) met the NCHS standards for reliability for PM 6, the 2002 indicator is the national average except for Maine which has its State value noted.

PERFORMANCE MEASURE # 07

Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008

Field Level Notes

1. **Section Number:** Form11_Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2008

Field Note:

A manual indicator is reported for 2008 based on 2007.

2. **Section Number:** Form11_Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2007

Field Note:

Source: 2007 Maternal and Infant Health Assessment Survey (MIHA), MCAH Program, California Department of Public Health. Numerator: The number of women who delivered a live birth and who reported any breastfeeding at 3 months of age. Denominator: The number of women who delivered a live birth that reported whether or not they breastfed at 3 months of age. Numerator and denominator are weighted to the representative number of resident women in the state who delivered a live birth that year and exclude mothers who could not answer the question because they responded to the survey before 3 months post-partum.

Data for 2007 should not be compared to prior years due to changes in the MIHA survey. The MIHA breastfeeding question changed to breastfeeding at 3 months, compared to breastfeeding at 2 months in 2006 and prior years.

3. **Section Number:** Form11_Performance Measure #11

Field Name: PM11

Row Name:

Column Name:

Year: 2006

Field Note:

Source: 2006 Maternal and Infant Health Assessment Survey (MIHA), MCAH Program, California Department of Public Health. Numerator: The number of women who delivered a live birth and who reported any breastfeeding at 2 months of age. Denominator: The number of women who delivered a live birth that reported whether or not they breastfed at 2 months of age. Numerator and denominator are weighted to the representative number of resident women in the state who delivered a live birth that year.

PERFORMANCE MEASURE # 12

Percentage of newborns who have been screened for hearing before hospital discharge.

Field Level Notes**1. Section Number:** Form11_Performance Measure #14

Field Name: PM14

Row Name:

Column Name:

Year: 2008

Field Note:

Data Source: CDC, Pediatric Nutrition Surveillance System (PedNSS) Annual Reports for Calendar Year 2008. Table 12C, 2008 Pediatric Nutrition Surveillance, Summary of Trends in Growth and Anemia Indicators, Children Aged < 5 years.

Overall percent computed by summing percent of children age 24-59 months in the 85th-<95th percentile for Body Mass Index (BMI) plus the percent greater than or equal to the 95th percentile for BMI. The numerator was calculated by multiplying the denominator by this overall percent. Data available at: <http://www.dhcs.ca.gov/services/chdp/Documents/PedNSS/2008/12C.pdf>. Last accessed on September 1, 2009.

In California, PedNSS data are collected from the Child Health and Disability Prevention (CHDP) Program health assessment screening appointments. The CHDP program targets low-income, high-risk children, birth through 19 years of age. CHDP data are collected in medical offices/clinics and recorded on the CHDP Confidential Screening/Billing Report form (PM 160). This form is submitted for payment and program reporting as well as serving as California's data source. These data are transmitted to the CDC for inclusion in the national PedNSS.

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes**1. Section Number:** Form11_State Performance Measure #2**Field Name:** SM2**Row Name:****Column Name:****Year:** 2008**Field Note:**

This measure is the ratio of pediatric cardiologists authorized by the CCS program to children birth through 14 years of age receiving cardiology services from these pediatric cardiologists.

The data is from CCS program listing of approved providers at Cardiac Special Care Centers and CCS ICD 9 codes for cardiac and cardiac related diagnoses for FY 2008-09.

There was an error in the number of children birth through 14 years for 2006-07 and the corrected number is 57865, with the resultant ratio of 1:445.

For 2008-09, the ratio is 1:366 due to an increase in the number of cardiologists and a decrease in the number of CCS clients due to closure of some inactive cases with cardiac diagnoses. The increase in cardiologists is primarily in one area of Northern CA due to very aggressive recruiting, and there continues to be significant deficits of pediatric cardiologists in all other areas.

The indicator is 1:350 for 2009-2012.

2. Section Number: Form11_State Performance Measure #2**Field Name:** SM2**Row Name:****Column Name:****Year:** 2007**Field Note:**

This measure is the ratio of pediatric cardiologists authorized by the CCS program to children birth through 14 years of age receiving cardiology services from these pediatric cardiologists.

The data is from CCS program listing of approved providers at Cardiac Special Care Centers and CCS ICD 9 codes for cardiac and cardiac related diagnoses for FY 2007-08.

There was an error in the number of children birth through 14 years for 2006-07 and the corrected number is 57865, with the resultant ratio of 1:445.

For 2007-08, the ratio is 1:409 due to a small increase in the number of cardiologists and a decrease in the number of CCS clients due to closure of some inactive cases with cardiac diagnoses.

The indicator is 1:400 for 2008-2012.

3. Section Number: Form11_State Performance Measure #2**Field Name:** SM2**Row Name:****Column Name:****Year:** 2006**Field Note:**

This measure is the ratio of pediatric cardiologists authorized by the CCS program to children birth through 14 years of age receiving cardiology services from these pediatric cardiologists.

The data is from CCS program listing of approved providers at Cardiac Special Care Centers and CCS ICD 9 codes for cardiac and cardiac related diagnoses for FY 2006-07.

There was an error in the number of children birth through 14 years and the corrected number is 57865, with the resultant ratio of 1:445.

STATE PERFORMANCE MEASURE # 3

The percent of women, aged 18-44 years, who reported 14 or more "not good" mental health days in the past 30 days ("frequent mental distress").

<u>Annual Objective and Performance Data</u>					
	2004	2005	2006	2007	2008

Field Level Notes**1. Section Number:** Form11_State Performance Measure #6**Field Name:** SM6**Row Name:****Column Name:****Year:** 2008**Field Note:**

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form11_State Performance Measure #6**Field Name:** SM6**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source: State of California, Department of Public Health, California Birth Defects Monitoring Program (CBDMP) Registry, 2007.

Numerator: Confirmed cases of NTDs in 2007 among fetal deaths plus live births in monitored counties (provisional). The provisional data for 2007, as well as all data reported in prior years, include only anencephaly and spina bifida cases. Including encephaloceles that are not part of another syndrome for prior years data would increase the numerators and rates as follows: 2003 = 54 cases, 8.5 per 10,000; 2004 = 40 cases, 6.1 per 10,000; 2005 = 52 cases, 7.7 per 10,000; 2007 = 47 cases, 6.6 per 10,000. Encephalocele data for 2006 are not yet available from CBDMP, and 2006 indicator data reported in the table are still provisional.

Denominator: Fetal deaths plus live births in monitored counties. The number of counties included in the registry was reduced beginning in 1998. Data since 1998 are from eight counties in the Central Valley. Analysis carried out by CBDMP of the neural tube defect incidence data suggest the comparability of the 8-county sample with the larger sample used through 1997. The eight counties are deemed sufficient by CBDMP for surveillance purposes in this state.

3. Section Number: Form11_State Performance Measure #6**Field Name:** SM6**Row Name:****Column Name:****Year:** 2006**Field Note:**

State of California, Department of Public Health, 2006 California Birth Defects Monitoring Program (CBDMP) Registry.

Numerator: Confirmed cases of NTDs in 2006 among fetal deaths plus live births in monitored counties (provisional). The provisional data for 2006 as well as all data reported in prior years, include only anencephaly and spina bifida cases. Including encephaloceles not part of another syndrome for prior years data would increase the 2003 numerator to 54, and the rate to 8.5 per 10,000; the 2004 NTD numerator would increase to 40 and the rate to 6.1 per 10,000 ; the 2005 NTD numerator would increase to 52 and the rate to 7.7 per 10,000. NOTE: the manual matching process performed to determine NTD-related encephalocele cases that were not part of another syndrome detected two additional cases of spina bifida for 2003. Thus, without adding encephaloceles to the 2003 data reported previously, those numbers should be updated to a numerator of 51 and a rate of 8.1 per 10,000 live births and fetal deaths.

Denominator: Fetal deaths plus live births in monitored counties. The number of counties included in the registry was reduced beginning in 1998. Data since 1998 are from eight counties in the Central Valley. Analysis carried out by CBDMP of the neural tube defect incidence data suggest the comparability of the 8-county sample with the larger sample used through 1997. The eight counties are deemed sufficient by CBDMP for surveillance purposes in this state.

STATE PERFORMANCE MEASURE # 7

The percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

Field Level Notes**1. Section Number:** Form11_State Performance Measure #7**Field Name:** SM7**Row Name:****Column Name:****Year:** 2008**Field Note:**

This measure is the percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

The data are CMS Net data for 57 counties and data from LA County for FY 2007-08. The 57 counties opened 76 percent of their cases within 30 days of referral and LA County opened 97.3 percent of their cases within 30 days of referral.

2. Section Number: Form11_State Performance Measure #7**Field Name:** SM7**Row Name:****Column Name:****Year:** 2007**Field Note:**

This measure is the percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

The data are CMS Net data for 56 counties and data from LA County for FY 2006-07. Sacramento is not collecting comparable data and so it is not included in this measure.

3. Section Number: Form11_State Performance Measure #7**Field Name:** SM7**Row Name:****Column Name:****Year:** 2006**Field Note:**

This measure is the percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

The data are CMS Net data for 56 counties and data from LA County for FY 2005-06. Sacramento is not collecting comparable data and so it is not included in this measure.

STATE PERFORMANCE MEASURE # 8

The percent of births resulting from an unintended pregnancy.

Annual Objective and Performance Data

Field Level Notes

1. **Section Number:** Form11_State Performance Measure #8

Field Name: SM8

Row Name:

Column Name:

Year: 2008

Field Note:

A manual indicator is reported for 2008 based on 2007.

2. **Section Number:** Form11_State Performance Measure #8

Field Name: SM8

Row Name:

Column Name:

Year: 2007

Field Note:

Source: 2007 Maternal and Infant Health Assessment Survey, MCAH Program, California Department of Public Health. Numerator: Number of women who delivered a live birth who reported that they had wanted to get pregnant later, hadn't wanted to get pregnant then or in the future, or weren't sure what they wanted. Denominator: Number of women who delivered a live birth who reported when they had wanted to get pregnant. Numerator and denominator are weighted to the representative number of resident women in the state who delivered a live birth that year.

3. **Section Number:** Form11_State Performance Measure #8

Field Name: SM8

Row Name:

Column Name:

Year: 2006

Field Note:

Source: 2006 Maternal and Infant Health Assessment Survey, MCAH Program, California Department of Public Health. Numerator: Number of women who delivered a live birth who reported that they had wanted to get pregnant later, hadn't wanted to get pregnant then or in the future, or weren't sure what they wanted. Denominator: Number of women who delivered a live birth who reported when they had wanted to get pregnant. Numerator and denominator are weighted to the representative number of resident women in the state who delivered a live birth that year.

STATE PERFORMANCE MEASURE # 9

The percent of 9th grade students who are not within the Healthy Fitness Zone for Body Composition.

Field Level Notes**1. Section Number:** Form11_State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2008**Field Note:**

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form11_State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2007**Field Note:**

Sources: California Department of Public Health, California Women's Health Survey (CWHS), 2007. Numerator: Number of women (18 years old or older) reporting any intimate partner physical, sexual, or psychological/emotional abuse in the past 12 months. Denominator: Number of women (18 years old or older) completing at least one of a series of nine questions in the CWHS on intimate partner abuse. Results are weighted using the California Department of Finance population data for 2000 (file name Race/Ethnic Population with Age and Sex Detail, 2000-2050), May 2004.

2006-07 data should not be compared to prior year data. Beginning in 2006, women without intimate partners are included in the denominator. Recalculated rates for prior year data using this method: 2005 = 8.1%; 2004 = 9.2%; 2003 = 8.3%.

3. Section Number: Form11_State Performance Measure #10**Field Name:** SM10**Row Name:****Column Name:****Year:** 2006**Field Note:**

Sources: California Department of Public Health, California Women's Health Survey (CWHS), 2006. 2006 data should not be compared to prior year data. Beginning in 2006, women without intimate partners are included in the denominator. Recalculated rates for prior year data using this method: 2005 = 8.1%; 2004 = 9.2%; 2003 = 8.3%.

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: CA

Form Level Notes for Form 12

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Outcome Measures will be available by March 2010.

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data					
	2004	2005	2006	2007	2008
Annual Performance Objective	5.4	5.2	5.1	5.1	5.1
Annual Indicator	5.2	5.3	5.0	5.2	5.2
Numerator	2,811	2,913	2,829	2,941	
Denominator	544,685	548,700	562,157	566,089	
Data Source					CA Birth and Death Statistical Master Files, 2007
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.)					
Is the Data Provisional or Final?				Final	Provisional

Annual Objective and Performance Data					
	2009	2010	2011	2012	2013
Annual Performance Objective	5	5	5	4.9	4.9
Annual Indicator					
Numerator	Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes**1. Section Number:** Form12_State Outcome Measure 1**Field Name:** SO1**Row Name:****Column Name:****Year:** 2008**Field Note:**

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form12_State Outcome Measure 1**Field Name:** SO1**Row Name:****Column Name:****Year:** 2007**Field Note:**

Source Data: Numerator: State of California, Department of Public Health, Center for Health Statistics, 2007 California Death Statistical Master File (ICD-10 Group Cause of Death Codes 261-273). Deaths coded as O97 (deaths greater than 365 days) are now excluded from the numerator. Recomputed pregnancy-related mortality rates excluding O97 codes for prior years: 2004 - 13.4; 2005 - 19.1; 2006 - 19.0. Denominator: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Tabulations were done by the MCAH Program.

3. Section Number: Form12_State Outcome Measure 1**Field Name:** SO1**Row Name:****Column Name:****Year:** 2006**Field Note:**

Source Data: Numerator: State of California, Department of Public Health, Center for Health Statistics, 2006 California Death Statistical Master File (ICD-10 Group Cause of Death Codes 261-273). Denominator: State of California, Department of Public Health, Center for Health Statistics, 2006 California Birth Statistical Master File. Tabulations were done by the MCAH Program.

FORM 13
CHARACTERISTICS DOCUMENTING FAMILY PARTICIPATION IN CSHCN PROGRAMS
STATE: CA

1. Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate.

3

2. Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups.

3

3. Family members are involved in the Children with Special Health Care Needs elements of the MCH Block Grant Application process.

2

4. Family members are involved in service training of CSHCN staff and providers.

3

5. Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member).

2

6. Family members of diverse cultures are involved in all of the above activities.

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: CA FY: 2010

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Enhance preconception care and work toward eliminating disparities in infant and maternal morbidity and mortality.
2. Promote healthy lifestyle practices among MCAH populations and reduce the rate of overweight children and adolescents.
3. Promote responsible sexual behavior in order to decrease the rate of teenage pregnancy and sexually transmitted infections.
4. Improve mental health and decrease substance abuse among children, adolescents, and pregnant or parenting women.
5. Coordinate to develop and implement a system of timely referral between mental health, developmental services, social services, special education services and CCS.
6. Improve access to medical and dental services, including the reduction of disparities.
7. Expand the number of qualified providers participating in the CCS program, e.g., medical specialists, audiologists, occupational and physical therapists, and nutritionists.
8. Increase the number of family-centered medical homes for CSHCN and the number/percent of CCS children who have a designated medical home.
9. Decrease unintentional and intentional injuries and violence, including family and intimate partner violence.
10. Increase breastfeeding initiation and duration.

TECHNICAL ASSISTANCE(TA) REQUEST

STATE: CA

APPLICATION YEAR: 2010

No.	Category of Technical Assistance Requested	Description of Technical Assistance Requested (max 250 characters)	Reason(s) Why Assistance Is Needed (max 250 characters)	What State, Organization or Individual Would You suggest Provide the TA (if known) (max 250 characters)
1.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Methodological training for new and junior research staff, including 1) epidemiological methods for analysis of maternal, child, and adolescent health; and 2) conducting cost-effectiveness analysis for Title V programs.	To aid in analysis of California's performance in meeting national and state performance measures goals: to establish new targets for the measures; to evaluate Title V programs over time; to evaluate cost-effectiveness of Title V programs.	Unknown
2.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Assistance in the development of systems for identifying, reviewing, and analyzing maternal morbidity and mortality that will serve as a framework for improved maternal standard of care.	Assistance is needed on study design, case selection, medical record review protocols, guidance on whether cases are pregnancy-related or pregnancy-associated, and development of recommendations to reduce morbidity and mortality based on findings.	CDC
3.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Assistance in how to obtain additional youth input into decision-making for the MCAH Program and its adolescent-related programs.	The MCAH Program currently does not have sufficient manpower to carry out this activity, but would like to include more youth input into our decision-making process.	Unknown
4.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	Training on consumer/family involvement in the needs assessment and other Title V activities at both the state and local levels.	This is a Title V requirement and the MCAP Program has been asked to be more proactive in including families.	HRSA-MCHB
5.	General Systems Capacity Issues If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> N/A </u>	The MCAH Program requests training and resources materials in the area of capacity assessment.	Assistance is requested in clinical capacity assessment, clinical workforce assessment at state and county levels; public health capacity assessment; and the integration of needs assessment, capacity assessment and implementation planning.	Unknown
6.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
7.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
8.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>			
9.	If you selected State or National Performance Measure Issue categories above, identify the performance measure to which this issue pertains by entering the measure number here: <u> </u>

FIELD LEVEL NOTES

None

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: CA

SP # 1

PERFORMANCE MEASURE:

The percent of children birth to 21 years enrolled in the CCS program who have a designated medical home.

STATUS:

Active

GOAL

Every child enrolled in the CCS program will have a designated medical home.

DEFINITION

The percent of children birth to 21 years enrolled in the CCS program who have been identified as having a medical home.

Numerator:

Number of children from birth to 21 years enrolled in the CCS program with a designated medical home

Denominator:

Number of children from birth to 21 years enrolled in the CCS program

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

Every child with special health care needs will receive comprehensive care in a medical home.

DATA SOURCES AND DATA ISSUES

CMS Net data for 57 counties and data from Los Angeles County CCS program.

SIGNIFICANCE

The American Academy of Pediatrics (AAP) promotes the medical home concept as a means of enabling access and coordinating care. Care coordination involves sharing of medical information between providers as well as helping parents navigate service systems that can be complex. Healthy People 2010 objective is that every child with special health care needs will receive comprehensive care in a Medical Home.

SP # 2

PERFORMANCE MEASURE:

The ratio of pediatric cardiologists authorized by the CCS program to children birth through 14 years of age receiving cardiology services from these pediatric cardiologists.

STATUS:

Active

GOAL

Expand the capacity of pediatric cardiology services available in the CCS program.

DEFINITION

The ratio of the number of pediatric cardiologists authorized by the CCS program to the number of children estimated to be receiving cardiology services, diagnostic or treatment, birth through 14 years of age from these pediatric cardiologists.

Numerator:

Number of pediatric cardiologists authorized by the CCS program to provide services.

Denominator:

Number of children birth through 14 years of age enrolled in CCS receiving cardiac diagnostic and/or treatment services plus the estimated number of children birth through 14 years of age not enrolled in CCS but receiving services from the same pediatric cardiologists who are authorized by the CCS program.

Units: 1 **Text:** Ratio

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

CCS program listing of approved providers for CCS approved Cardiac Special Care Centers and CCS ICD 9 codes for cardiac and cardiac related diagnoses from CMS Net, extrapolated for LA County not on CMS Net. To get the total cases for the state, the assumption is made that these CCS enrollees make up on average 40% of the caseload of these pediatric cardiologists.

SIGNIFICANCE

CCS depends on an established network of physicians, therapists, and hospitals to provide care to the over 180,000 children enrolled in the program at any given time. The availability of pediatric subspecialty providers to serve the children who need care has become a major issue in California, resulting in a barrier to accessing pediatric subspecialty care particularly for CYSHCN. Low reimbursement rates and higher cost of living are two reasons subspecialty providers are leaving the state or not attracted to coming to California. The distribution of these providers to large cities while rural areas have none of these subspecialists is also another source of unavailability of appropriate providers.

SP # 3

PERFORMANCE MEASURE:

The percent of women, aged 18-44 years, who reported 14 or more "not good" mental health days in the past 30 days ("frequent mental distress").

STATUS:

Active

GOAL

To reduce the prevalence of frequent mental distress among women of childbearing age.

DEFINITION

The percent of women, aged 18-44 years, who reported 14 or more "not good" mental health days when asked the question, "Now thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?" The number of women reporting 14 or more "not good" mental health days was divided by the number of women who responded to this question and multiplied by 100.

Numerator:

The number of women, aged 18-44 years, in the most recent appropriate year of the California Women's Health Survey, reporting 14 or more "not good" mental health days in the past 30 days, weighted using the California Department of Finance population data for 2000 (file name Race/Ethnic Population with Age and Sex Detail, 2000-2050).

Denominator:

The number of women, aged 18-44 years, reporting number of "not good" mental health days, weighted using the California Department of Finance population data for 2000 (file name Race/Ethnic Population with Age and Sex Detail, 2000-2050).

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

No specific or related HP 2010 Objective for frequent mental distress in women of childbearing age.

DATA SOURCES AND DATA ISSUES

The most recent appropriate year of the California Women's Health Survey (CWHs), California Department of Public Health. The CWHs is an annual, population-based, telephone survey of California women, age 18 and older. Numbers are based on self-report by the women who responded to the question. Numbers are weighted using the California Department of Finance population data for 2000.

SIGNIFICANCE

Mental health is essential to overall health. Mental disorders are health conditions that are associated with alterations in thinking, mood, or behavior, which are associated with distress and impaired functioning. Affecting one out of five persons in the United States, mental disorders rank first among illnesses that cause disability, with an annual national indirect cost of almost \$79 billion (in 1990 dollars), mostly in lost productivity due to disability, suicide, incarceration, and family care. Frequent mental distress serves as a proxy for mental health in national studies, and is defined as experiencing 14 or more "not good" mental health days in the past 30 days.

PERFORMANCE MEASURE:

The percent of women who reported drinking any alcohol in the first or last trimester of pregnancy.

STATUS:

Active

GOAL

To reduce the prevalence of women drinking any alcohol during pregnancy.

DEFINITION

The percent of women with a live birth reporting they drank alcohol during the first or third trimester of pregnancy based on the following questions: "The next two questions are about drinking alcohol. By 'alcohol' we mean any kind of drink with alcohol in it --including beer, wine, wine cooler, hard liquor, or a mixed drink made with hard liquor: (A) During the first 3 months of your pregnancy, about how many drinks with alcohol did you have in an average week? A drink is one glass of wine, one wine cooler, one can or bottle of beer, one shot of liquor, or one mixed drink. (B) During the last 3 months of your pregnancy, about how many drinks with alcohol did you have in an average week?" (Response categories for these questions are not shown). The number of women reporting any alcohol consumption during the first or third trimester was divided by the number of women who responded to these questions and multiplied by 100.

Numerator:

Number of women who delivered a live birth and who reported drinking any alcohol in the first or third trimester of pregnancy. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

Denominator:

Number of women who delivered a live birth that reported whether or not they consumed alcohol during pregnancy. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

No specific HP 2010 Objective for alcohol use during pregnancy by women who delivered live births. Related Objective 16-17: Increase in reported abstinence from alcohol in past month by pregnant women to 94 percent.

DATA SOURCES AND DATA ISSUES

California Maternal and Infant Health Assessment (MIHA), California Department of Public Health, Maternal, Child and Adolescent Health Program. MIHA is an annual, statewide, representative survey of women who recently delivered live births, randomly sampled from birth certificate data. MIHA is modeled on the CDC's Pregnancy Risk Assessment Monitoring System. Surveys are mailed 10-14 weeks postpartum. Non-respondents are followed up by mail and telephone. MIHA excludes mothers under age 15, if pregnancy resulted in multiple birth greater than triplets, and women who do not write or speak either English or Spanish. Alcohol use is based on self-report. Reported alcohol use during the second trimester is not available. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

SIGNIFICANCE

Drinking alcohol during pregnancy can cause growth deficits and permanent harm to the central nervous system of fetuses, affecting both mental and physical functioning of children. No safe level of alcohol consumption during pregnancy has been established. Because the effects of alcohol use during pregnancy are so detrimental, the American Academy of Pediatrics and the American College of Obstetricians and Gynecologists recommend that women who are pregnant or planning a pregnancy drink no alcohol at all.

SP # 5

PERFORMANCE MEASURE:

The rate of deaths per 100,000 adolescents aged 15 through 19 years caused by motor vehicle injuries.

STATUS:

Active

GOAL

To reduce the rate of deaths to adolescents aged 15 through 19 years caused by motor vehicle injuries.

DEFINITION

The rate of deaths to adolescents aged 15-19 years due to group cause of death codes 296-306 (ICD 10).

Numerator:

The number of deaths to adolescents aged 15-19 years caused by motor vehicle injuries (group cause of death codes 296-306 [ICD 10]).

Denominator:

The number of adolescents in California aged 15-19 years.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

No specific Healthy People 2010 objective by age group. Related objective 15-15: Reduce deaths caused by motor vehicle crashes to 9.2 per 100,000 in the total population.

DATA SOURCES AND DATA ISSUES

Numerator data source: California Department of Public Health, Center for Health Statistics, Death Statistical Master File. Denominator data source: California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050.

SIGNIFICANCE

Motor vehicle transport-related injuries are the leading cause of death among California's adolescents, accounting for one-third of all fatalities in the 15-19 year old age group. In 2004, 494 adolescents aged 15-19 died secondary to motor vehicle transport-related injuries. The mortality rate of 18.4 per 100,000 in adolescents is twice the related Healthy People 2010 objective and approximately six times greater than in children under 14 years of age (3.1 per 100,000) (2004 data).

SP # 6

PERFORMANCE MEASURE:

The incidence of neural tube defects (NTDs) per 10,000 live births plus fetal deaths among counties participating in the California Birth Defects Monitoring System.

STATUS:

Active

GOAL

To reduce the incidence of NTDs in California.

DEFINITION

The rate per 10,000 live births and fetal deaths among counties participating in the California Birth Defects Monitoring Program.

Numerator:

The number of NTD cases confirmed by medical geneticists among live births and fetal deaths in counties monitored by the California Birth Defects Monitoring Program.

Denominator:

The number of live births plus fetal deaths in monitored counties.

Units: 10000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

16-15: Reduce the occurrence of spina bifida and other NTDs to 3 new cases per 10,000 live births.

This HP 2010 measure cannot be directly compared with California's State Performance Measure 6 because the latter is based on NTDs in fetal deaths plus live births, rather than in live births only.

DATA SOURCES AND DATA ISSUES

Numerator data source: NTDs among births and fetal deaths from all counties monitored by the California Birth Defects Monitoring Program (currently eight counties in the Central Valley). Denominator data source: California Department of Public Health, Center for Health Statistics, Birth Statistical Master File and Fetal Death Statistical Master File for the same counties. NTDs are actively ascertained through review of logbooks and other records at hospitals where births occur or where children are treated, at genetic clinics, and through California Department of Health Services, Center for Health Statistics, Birth Statistical Master File, Death Statistical Master File, and Fetal Death Statistical Master File. Active surveillance detects more NTDs, and thus will report higher rates, than passive surveillance.

SIGNIFICANCE

Found in about 370 births in California each year, neural tube defects — a group of conditions affecting the brain and spinal cord — are common, usually serious birth defects, with substantial public health impact. Common types of neural tube defects are spina bifida (open spinal cord) and anencephaly (absence of the brain). All babies with anencephaly die. Nationally, for each person with spina bifida, the average lifetime cost for medical treatment, educational services and lost productivity was \$294,000 (in 1992 dollars).

SP # 7

PERFORMANCE MEASURE:

The percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

STATUS:

Active

GOAL

Decrease the time interval between initial referral to the CCS program and determination of CCS program eligibility.

DEFINITION

The percent of newly referred clients to the CCS program whose cases are opened within 30 days of referral.

Numerator:

Number of newly referred CCS clients birth to 21 years with cases opened within 30 days of referral.

Denominator:

Number of newly referred CCS clients birth to 21 years with cases opened.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

CMS Net data for 57 counties and data from LA County.

SIGNIFICANCE

A barrier to accessing care for CYSHCN is the long waiting period that can occur while the family and provider are awaiting determination of CCS program eligibility and an authorization(s) for services if eligible. There is wide variability regarding delays due to numerous factors, including: delays in receiving medical reports from providers; family compliance with administrative requirements; program delays in meeting CCS timelines. Some of these are not under the control of the CCS programs, however, there are areas which can be improved.

SP # 8

PERFORMANCE MEASURE:

The percent of births resulting from an unintended pregnancy.

STATUS:

Active

GOAL

To reduce the percent of live births that result from unintended pregnancies.

DEFINITION

The percent of women with a live birth who report their pregnancy was unintended based on the following question, "Thinking back to just before you got pregnant, how did you feel about getting pregnant? (1) I wanted to get pregnant then; (2) I wanted to get pregnant later; (3) I didn't want to get pregnant then or in the future; (4) I wasn't sure what I wanted." The number of women responding yes to #2, #3, or #4 was divided by the number of women who responded to this question and multiplied by 100.

Numerator:

Number of women who delivered a live birth who reported that they had wanted to get pregnant later, hadn't wanted to get pregnant then or in the future, or weren't sure what they wanted. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

Denominator:

Number of women who delivered a live birth who reported when they had wanted to get pregnant. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

No specific HP 2010 Objective for births resulting from unintended pregnancies. Related Objective 9-1: Increase the proportion of pregnancies that are intended to 70 percent.

DATA SOURCES AND DATA ISSUES

California Maternal and Infant Health Assessment (MIHA), California Department of Public Health, Maternal, Child and Adolescent Health Program. MIHA is an annual, statewide, representative survey of women who recently gave birth, randomly sampled from birth certificate data. MIHA is modeled on the CDC's Pregnancy Risk Assessment Monitoring System. Surveys are mailed 10-14 weeks postpartum. Non-respondents are followed up by mail and telephone. MIHA excludes mothers under age 15, if pregnancy resulted in multiple birth greater than triplets, and women who do not write or speak either English or Spanish. Survey data are weighted to the representative number of resident women in the state who delivered a live birth that year.

SIGNIFICANCE

Unintended pregnancies are frequent. They are costly economically and socially for individuals and society. Infants and children of such pregnancies are at increased risk of morbidity and mortality. In 2002, 35 percent of recent births in the United States were unintended (source: National Survey of Family Growth, Cycle VI), compared to 45 percent of births in California that year (source: MIHA).

SP # 9

PERFORMANCE MEASURE:

The percent of 9th grade students who are not within the Healthy Fitness Zone for Body Composition.

STATUS:

Active

GOAL

To reduce the prevalence of overweight among California's youth.

DEFINITION

The number of 9th grade students whose body mass index or skin-fold measurement scores do not fall within Healthy Fitness Zone standards divided by the number of 9th grade students tested for body composition and multiplied by 100.

Numerator:

The number of 9th grade students whose body composition is not within the Healthy Fitness Zone.

Denominator:

The number of 9th grade students tested for body composition.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

19.3: Reduce the proportion of children and adolescents who are overweight or obese to five percent.

DATA SOURCES AND DATA ISSUES

Numerator and denominator source data: data are collected annually using either skin-fold measurements or calculating body mass index (BMI) based on actual height and weight measurements of 9th graders. As these data are legally required, collected by the California Department of Education and are reported annually to the State Legislature, almost all students in the 9th grade are measured. Healthy Fitness Zone is based on the Cooper Institute standards*. Although children not in the Healthy Fitness Zone include underweight as well as overweight, underweight are likely to be a small proportion.

*FITNESSGRAM Standards for Healthy Fitness Zone for body mass index: 14 years of age (Male, 15.4-25.0; Female 15.6-24.5); 15 years of age (Male, 16.0-25.0; Female 16.0-25.0). Healthy Fitness Zone standards for skin fold measurements (percent fat) for 14 and 15 year old adolescents: Males (7%-25%), Females (13%-32%).

SIGNIFICANCE

Maintenance of a healthy weight is a major goal in the effort to reduce the burden of illness and its consequent reduction in quality of life and life expectancy. Body composition scores above the Healthy Fitness Zone are associated with high blood pressure, type 2 diabetes, coronary heart disease, stroke, gallbladder disease, osteoarthritis, sleep apnea, respiratory problems, and some types of cancer. Adult dietary and physical activity behaviors begin in youth.

PERFORMANCE MEASURE:

The percent of women, aged 18 years or older, reporting intimate partner physical, sexual or psychological abuse in the past 12 months.

STATUS:

Active

GOAL

To reduce the prevalence of intimate partner abuse against women.

DEFINITION

The number of women who responded “yes” to any of nine questions asking whether they experienced intimate partner physical, sexual or psychological abuse in the past 12 months. That number was divided by the number of women responding either “yes” or “no” to any of these questions and multiplied by 100.

Numerator:

The number of women, aged 18 years or older, in the most recent appropriate year of the California Women’s Health Survey, who reported any of the following by an intimate partner in the past 12 months, weighted using the California Department of Finance population data for 2000 (file name Race/Ethnic Population with Age and Sex Detail, 2000-2050): had something thrown at her; was pushed, grabbed, shoved or slapped; was kicked, bit or hit with a fist; was beaten up or choked; had a knife used on her or a gun fired at her; was forced to have sex against her will; was followed or spied on; was frightened for her safety, or that of her family or friends because of her partner’s anger or threats; or was the object of efforts to control most or all of her daily activities (e.g., whom she could talk to or where she could go).

Denominator:

The number of women (18 years old or older) responding either “yes” or “no” to any of the nine CWHs questions (in 2004) about intimate partner abuse, weighted using the California Department of Finance population data for 2000 (file name Race/Ethnic Population with Age and Sex Detail, 2000-2050).

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

No specific Healthy People 2010 Objective. Related Objective 15-34: Reduce the rate of physical assault by current or former intimate partners to 3.3 physical assaults per 1,000 persons aged 12 years and older. This HP 2010 measure includes both males and females, aged 12 years and older, and is based on the National Crime Victimization Survey for which respondents may or may not construe “attacks and threats” to include fear of threats or anger, control, and following/spying.

DATA SOURCES AND DATA ISSUES

The most recent appropriate year of the California Women’s Health Survey (CWHs), California Department of Public Health. The CWHs is an annual, population-based, telephone survey of California women, aged 18 and older. Numbers are based on self-report by the women who responded to the question. Numbers are weighted using the California Department of Finance population data for 2000.

SIGNIFICANCE

Domestic violence is a leading cause of injury to women aged 15-44 in the U.S. Annually, about 30 percent of murdered women are killed by their intimates. In 1998 in California, 196,832 incidents of domestic violence were reported to law enforcement, and 56,892 domestic violence arrests were made.

SO # 1

OUTCOME MEASURE:

The pregnancy-related mortality rate per 100,000 live births.

STATUS:

Active

GOAL

To reduce the rate of pregnancy-related deaths.

DEFINITION

The number of pregnancy-related deaths due to group cause of deaths codes 261-273 (ICD 10) as recorded in the California Death Statistical Master File divided by the number of live births, multiplied by 100,000.

Numerator:

Number of deaths to women caused by complications of pregnancy within one year of pregnancy (group cause of death codes 261-273 [ICD 10]).

Denominator:

Number of live births.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

No matching Healthy People 2010 objective for this measure. Related objective 16-4: Reduce maternal deaths to 3.3 maternal deaths per 100,000 live births. Pregnancy-related mortality includes deaths less than or equal to 365 days following parturition; maternal mortality includes deaths less than or equal to 42 days following parturition.

DATA SOURCES AND DATA ISSUES

Numerator data source: California Department of Public Health, Center for Health Statistics, Death Statistical Master File. Denominator data source: California Department of Public Health, Center for Health Statistics, Birth Statistical Master File.

SIGNIFICANCE

Pregnancy-related mortality is a sentinel event and is a good indicator of maternal health care and prenatal care for women. African-American women, in particular, have a disproportionately high rate of pregnancy-related mortality. Pregnancy-related mortality rates in California continue to fluctuate annually, but showed an overall increase from 1999 to 2004.

FORM NOTES FOR FORM 16

FIELD LEVEL NOTES

None

FORM 17
HEALTH SYSTEMS CAPACITY INDICATORS
FORMS FOR HSCI 01 THROUGH 04, 07 & 08 - MULTI-YEAR DATA
STATE: CA

Form Level Notes for Form 17

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Health Systems Capacity Indicators will be available by March 2010.

HEALTH SYSTEMS CAPACITY MEASURE # 01

The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 -493.9) per 10,000 children less than five years of age.

		Annual Indicator Data				
	2004	2005	2006	2007	2008	
Annual Indicator	30.6	24.6	24.3	22.8	22.8	
Numerator	7,905	6,458	6,559	6,186		
Denominator	2,582,390	2,630,401	2,698,813	2,710,425		
Check this box if you cannot report the numerator because						
1. There are fewer than 5 events over the last year, and						
2. The average number of events over the last 3 years is fewer						
than 5 and therefore a 3-year moving average cannot be						
applied.						
(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. Section Number: Form17_Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2008

Field Note:

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form17_Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2007

Field Note:

Numerator: State of California, Office of Statewide Health Planning and Development, Patient Discharge Data (OSHPD-PDD), January 1-December 31, 2007. Primary diagnoses of each discharge abstract were tabulated, secondary diagnoses were not included. Denominator: Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007. Tabulations (by place of residence) were done by the MCAH Program.

Data for 2006-2007 should be not compared to data reported in previous years due to recent updates in the 2000-2050 population projections released by the California Department of Finance (July 2007). Rates for prior years using these updated population estimates: 2000 = 35.1; 2001 = 32.8; 2002 = 33.6; 2003 = 31.6; 2004 = 29.6; 2005 = 23.9

3. Section Number: Form17_Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2006

Field Note:

Numerator: State of California, Office of Statewide Health Planning and Development, Patient Discharge Data (OSHPD-PDD), January 1-December 31, 2006. Primary diagnoses of each discharge abstract were tabulated, secondary diagnoses were not included. Denominator: Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007. Tabulations (by place of residence) were done by the MCAH Program.

Data for 2006 should be not compared to data reported in previous years due to recent updates in the 2000-2050 population projections released by the California Department of Finance (July 2007). Rates for prior years using these updated population estimates: 2000 = 35.1; 2001 = 32.8; 2002 = 33.6; 2003 = 31.6; 2004 = 29.6; 2005 = 23.9

HEALTH SYSTEMS CAPACITY MEASURE # 02

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

	Annual Indicator Data				
	2004	2005	2006	2007	2008
Annual Indicator	<u>66.3</u>	<u>73.7</u>	<u>71.3</u>	<u>82.5</u>	<u>82.5</u>
Numerator	<u>418,190</u>	<u>455,151</u>	<u>460,738</u>	<u>580,680</u>	<u></u>
Denominator	<u>630,754</u>	<u>617,571</u>	<u>646,633</u>	<u>703,949</u>	<u></u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

1. **Section Number:** Form17_Health Systems Capacity Indicator #07B

Field Name: HSC07B

Row Name:

Column Name:

Year: 2008

Field Note:

Manual indicator for 2008 is based on 2007. 2008 data will be available in March 2010.

2. **Section Number:** Form17_Health Systems Capacity Indicator #07B

Field Name: HSC07B

Row Name:

Column Name:

Year: 2007

Field Note:

This measure is the percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

Source is the revised HCFA-416 Form, element numbers 1 and 12a.

Numerator is the revised HCFA-416 Form element number 12a for FY 2007-08.

Denominator is the revised HCFA-416 Form element number 1 for FY 2007-08.

Historical Information:

Medical Care Statistics had been providing the numerator and denominator for this performance measure until FY 2003-04 when the numerator and denominator began being provided by Medstat using the Management Information System/Decision Support System (MIS/DSS) data base. The performance measure for FY 2004-05 can be compared with FY 2003-04, but not with prior years.

3. **Section Number:** Form17_Health Systems Capacity Indicator #07B

Field Name: HSC07B

Row Name:

Column Name:

Year: 2006

Field Note:

This measure is the percent of EPSDT eligible children aged 6 through 9 years who have received any dental services during the year.

Source is the revised HCFA-416 Form, element numbers 1 and 12a.

Numerator is the revised HCFA-416 Form element number 12a for FY 2006-07.

Denominator is the revised HCFA-416 Form element number 1 for FY 2006-07.

Historical Information:

Medical Care Statistics had been providing the numerator and denominator for this performance measure until FY 2003-04 when the numerator and denominator began being provided by Medstat using the Management Information System/Decision Support System (MIS/DSS) data base. The performance measure for FY 2004-05 can be compared with FY 2003-04, but not with prior years.

HEALTH SYSTEMS CAPACITY MEASURE # 08

The percent of State SSI beneficiaries less than 16 years old receiving rehabilitative services from the State Children with Special Health Care Needs (CSHCN) Program.

	Annual Indicator Data				
	2004	2005	2006	2007	2008
Annual Indicator	<u>10.9</u>	<u>8.7</u>	<u>32.5</u>	<u>31.1</u>	<u>28.2</u>
Numerator	<u>8,944</u>	<u>7,318</u>	<u>27,623</u>	<u>27,058</u>	<u>25,554</u>
Denominator	<u>82,343</u>	<u>84,235</u>	<u>85,106</u>	<u>86,914</u>	<u>90,464</u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Final

Field Level Notes**1. Section Number:** Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2008

Field Note:

This measure is the percent of SSI beneficiaries through age 15 years receiving rehabilitative services through the CCS program. Source of data for the numerator is from CMS Net and CCS program data and for the denominator is from the publication: Social Security Administration Office of Policy, Children Receiving SSI.

Numerator: Children under 16 years of age enrolled in CCS with aid codes of 20 and 60 (disabled children with SSI) for FY 2007-08. Since active cases on CMS Net represent an estimated 72.3 percent of all active CCS cases for CA for FY 2007, the number with aid codes 20 and 60 from CMS Net is extrapolated for CA.

There is a large increase in the number of children with aid code 60 for FY 2005-06 which can not be explained but is more consistent with data in FY 2001-02 and FY 2002-03, and is more in line with what would be anticipated.

The denominator is from the Social Security Administration Office of Policy, Children Receiving SSI under 16 years of age for 2008.

2. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2007

Field Note:

This measure is the percent of SSI beneficiaries through age 15 years receiving rehabilitative services through the CCS program. Source of data for the numerator is from CMS Net and CCS program data and for the denominator is from the publication: Social Security Administration Office of Policy, Children Receiving SSI.

Numerator: Children under 16 years of age enrolled in CCS with aid codes of 20 and 60 (disabled children with SSI) for FY 2006-07. Since active cases on CMS Net represent an estimated 69 percent of all active CCS cases for CA for FY 2006, the number with aid codes 20 and 60 from CMS Net is extrapolated for CA.

There is a large increase in the number of children with aid code 60 for FY 2005-06 which can not be explained but is more consistent with data in FY 2001-02 and FY 2002-03, and is more in line with what would be anticipated.

The denominator is from the Social Security Administration Office of Policy, Children Receiving SSI under 16 years of age for 2007.

3. Section Number: Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2006

Field Note:

This measure is the percent of SSI beneficiaries through age 15 years receiving rehabilitative services through the CCS program. Source of data for the numerator is from CMS Net and CCS program data and for the denominator is from the publication: Social Security Administration Office of Policy, Children Receiving SSI.

Numerator: Children under 16 years of age enrolled in CCS with aid codes of 20 and 60 (disabled children with SSI) for FY 2005-06. Since active cases on CMS Net represent an estimated 63.6 percent of all active CCS cases for CA for FY 2005, the number with aid codes 20 and 60 from CMS Net is extrapolated for CA.

There is a large increase in the number of children with aid code 60 for FY 2005-06 which can not be explained but is more consistent with data in FY 2001-02 and FY 2002-03, and is more in line with what would be anticipated.

The denominator is from the Social Security Administration Office of Policy, Children Receiving SSI under 16 years of age for 2006.

This is the first year that data have been available for children less than 16 years of age, so no comparative data for previous years are available.

FORM 18
HEALTH SYSTEMS CAPACITY INDICATOR #05
(MEDICAID AND NON-MEDICAID COMPARISON)
STATE: CA

INDICATOR #05 <i>Comparison of health system capacity indicators for Medicaid, non-Medicaid, and all MCH populations in the State</i>	YEAR	DATA SOURCE	POPULATION

Row Name: Percent of ow birth weight (<2,500 grams)
Column Name:
Year: 2010
Field Note:
Source: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Expected payer source for delivery was used. Infants with missing birthweight were subtracted when calculating the percentages. Infants with missing payer source are included in the Total. Tabulations (by place of residence) were done by the MCAH Program.
- 8. Section Number:** Form18_Indicator 05
Field Name: InfantDeath
Row Name: Infant deaths per 1,000 live births
Column Name:
Year: 2010
Field Note:
Source: State of California, Department of Public Health, Center for Health Statistics, 2006 Birth Cohort file. Expected payer source for delivery was used to compute rates. Cases with missing payer source included in Total. Tabulations (by place of residence) were done by the MCAH Program.
- 9. Section Number:** Form18_Indicator 05
Field Name: CareFirstTrimester
Row Name: Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester
Column Name:
Year: 2010
Field Note:

Source: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Payer source for prenatal care was used. Women with missing prenatal care initiation were subtracted from the denominator when calculating the percent shown. Women with missing payer source included in Total. Tabulations (by place of residence) were done by the MCAH Program.

10. **Section Number:** Form18_Indicator 05

Field Name: AdequateCare

Row Name: Percent of pregnant women with adequate prenatal care

Column Name:

Year: 2010

Field Note:

Source: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Payer source for prenatal care was used. Women with missing prenatal care values were subtracted from the denominator when calculating the percent shown. Women with missing payer source included in Total. Tabulations (by place of residence) were done by the MCAH Program.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: CA

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	2	Yes
Annual linkage of birth certificates and WIC eligibility files	2	Yes
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	3	Yes
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: CA

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other: California Student Survey	3	No
California Health Interview Survey	3	Yes

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Health Systems Capacity Indicators will be available by March 2010.

The California Student Survey (CSS) utilizes data from a voluntary, representative, randomly-selected biennial sample of schools and classrooms (seventh, ninth graders, and 11th graders). The CSS collects information on adolescent alcohol and other drug use patterns, including data on tobacco use (smoking), marijuana, and inhalants, along with physical activity, nutrition and eating habits, depression, and external and internal resilience enhancing assets. The CSS allows for trend data analyses, and provides data on a range of health related behaviors comparable with the Youth Risk Behavior Survey.

The California Health Interview Survey (CHIS) is a telephone survey of adults, adolescents, and children from all parts of the state. The survey is conducted every two years. CHIS is the largest state health survey and one of the largest health surveys in the United States and is able to provide statewide and local level estimates on a number of health related issues, including adolescent tobacco use.

FIELD LEVEL NOTES

None

FORM 20
HEALTH STATUS INDICATORS #01-#05
MULTI-YEAR DATA
STATE: CA

Form Level Notes for Form 11

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Health Status Indicators will be available by March 2010.

HEALTH STATUS INDICATOR MEASURE # 01A

The percent of live births weighing less than 2,500 grams.

	<u>Annual Indicator Data</u>				
	2004	2005	2006	2007	2008
Annual Indicator	6.7	6.9	6.9	6.9	6.8
Numerator	36,481	37,653	38,517	38,918	37,663
Denominator	544,666	548,679	562,135	566,079	551,550

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

Provisional

Field Level Notes

1. Section Number: Form20_Health Status Indicator #04B

Field Name: HSI04B

Row Name:

Column Name:

Year: 2008

Field Note:

A manual indicator is reported for 2008 based on 2007.

2. Section Number: Form20_Health Status Indicator #04B

Field Name: HSI04B

Row Name:

Column Name:

Year: 2007

Field Note:

Source: Numerator: State of California, Office of Statewide Health Planning and Development, Patient Discharge Data (OSHPD-PDD), January 1-December 31, 2007.

Principal external cause of injury codes were used (ICD9-CM codes E810-E819). Data exclude cases of unknown age, newborns, and persons who died in the hospital.

Denominator: Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007.

Tabulations (by place of residence) were done by the MCAH Branch.

Data for 2006-2007 should be not compared to data reported in previous years due to recent updates in the 2000-2050 population projections released by the California Department of Finance (July 2007). Rates for prior years using these updated population estimates: 2000 = 39.6; 2001 = 35.9; 2002 = 36.4; 2003 = 35.9; 2004 = 35.4; 2005 = 29.6.

3. Section Number: Form20_Health Status Indicator #04B

Field Name: HSI04B

Row Name:

Column Name:

Year: 2006

Field Note:

Source: Numerator: State of California, Office of Statewide Health Planning and Development, Patient Discharge Data (OSHPD-PDD), January 1-December 31, 2006.

Principal external cause of injury codes were used (ICD9-CM codes E810-E819). Data exclude cases of unknown age, newborns, and persons who died in the hospital.

Denominator: Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007.

Tabulations (by place of residence) were done by the MCAH Branch.

Data for 2006 should be not compared to data reported in previous years due to recent updates in the 2000-2050 population projections released by the California Department of Finance (July 2007). Rates for prior years using these updated population estimates: 2000 = 39.6; 2001 = 35.9; 2002 = 36.4; 2003 = 35.9; 2004 = 35.4; 2005 = 29.6.

HEALTH STATUS INDICATOR MEASURE # 04C

The rate per 100,000 of nonfatal injuries due to motor vehicle crashes among youth aged 15 through 24 years.

	Annual Indicator Data				
	2004	2005	2006	2007	2008
Annual Indicator	161.9	153.5	146.7	135.4	135.4
Numerator	8,569	8,341	8,074	7,638	
Denominator	5,294,261	5,434,214	5,505,180	5,641,589	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

FORM NOTES FOR FORM 21

California provides the most current data available at the time the application was due. California anticipates that 2008 data for all Health Status Indicators will be available by March 2010.

HSI 06A & B: Source: State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007. http://www.dof.ca.gov/html/Demograp/Data/RaceEthnic/Population-00-50/RaceData_2000-2050.php. Tabulations were done by MCAH Program. White race is summed from White group and Hispanic group in this file.

HSI 07A & B: Source: State of California, Department of Public Health, Center for Health Statistics, 2007 California Birth Statistical Master File. Tabulations (by age and race/ethnicity) were done by the MCAH Program. Women with unknown age are not included in the totals. In 2007, age was known for 566,065 women and unknown for 24 women, for a total of 566,089 live births.

HSI 08A & B: State of California, Department of Health Services, Center for Health Statistics, 2007 California Death Statistical Master File. Tabulations (by age and race/ethnicity) were done by the MCAH Program.

FIELD LEVEL NOTES

1. Section Number: Form21_Indicator 09A

Field Name: HSIRace_Children

Row Name: All children 0 through 19

Column Name:

Year: 2010

Field Note:

State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007. http://www.dof.ca.gov/html/Demograp/Data/RaceEthnic/Population-00-50/RaceData_2000-2050.php.

Hispanic ethnicity is reported for Hispanic group in this file. Non Hispanic ethnicity is summed across non Hispanic race groups: White, Asian, Pacific Islander, Black, American Indian, and multirace.

2. Section Number: Form21_Indicator 09A

Field Name: HSIRace_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2010

Field Note:

Source: Current Population Survey, Annual Social and Economic Supplement, March 2008. CPS Table Creator for 2008. URL: http://www.census.gov/hhes/www/cpstc/cps_table_creator.html

Numerator: Universe, California, Ages 0-19, Persons in Male-Headed Primary Families, No Spouse Present + Universe, California, Ages 0-19, Persons in Female-Headed Primary Families, No Spouse Present

Denominator: Universe, California, Ages 0-19, Persons -- All

3. Section Number: Form21_Indicator 09A

Field Name: HSIRace_TANFPercent

Row Name: Percent in TANF (Grant) families

Column Name:

Year: 2010

Field Note:

Numerator: Number of children ages 0 to 18 in CalWORKs assistance units during FFY 2007. California Department of Social Services, Federal Data Reporting and Analysis Bureau. Ad hoc SAS analysis completed 1/28/2009, not yet published by CDSS.

Denominator: Number of children ages 0 to 18 in CY 2007. State of California, Department of Finance. Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, CA, July 2007.

4. Section Number: Form21_Indicator 09A

Field Name: HSIRace_MedicaidNo

Row Name: Number enrolled in Medicaid

Column Name:

Year: 2010

Field Note:

Source: California Department of Health Care Services, Medical Care Statistics Section

Notes:

1. Beneficiaries include all persons 0-19 years of age enrolled in Medi-Cal in October 2007.

2. Medi-Cal code for Asians includes other Pacific Islanders.

3. More Than One Race Reported category included only Amerasian ethnicity code (A). There were no other codes to identify persons of more than one race.

4. White category includes persons identified as White or Hispanic.

5. Medical Care Statistics Section used their MCSS Pivot tables (which come directly from the MEDS system and the 35-File claims records) for this current year. Two years ago Medical Care Statistics Section used the MIS-DSS database to arrive at the data for this indicator.

5. Section Number: Form21_Indicator 09A

Field Name: HSIRace_SCHIPNo

Row Name: Number enrolled in SCHIP

Column Name:

Year: 2010

Field Note:

Source: Managed Risk Medical Insurance Board, HFP Monthly Enrollment Reports, Current Enrolled for December 2008. Accessed January 12, 2009, at http://www.mrmib.ca.gov/MRMIB/HFP/Dec_07/HFPRpt5A.pdf.

Notes:

1. The count for Asian includes Native Hawaiian and Other Pacific Islander.

2. The HFP Monthly Enrollment Report does not include a More Than One Race Reported category.

6. Section Number: Form21_Indicator 09A

Field Name: HSIRace_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2010

Field Note:

Source: California Department of Social Services, Federal Data Reporting and Analysis Bureau. Ad hoc request, completed 12/12/2008. Data represent number of children in food stamp households during FFY 2007, in both public assistance and non-assistance households.

Notes:

1. The count of total Asian includes Native Hawaiian and Other Pacific Islander.
2. Race data are not comparable to prior years due to the addition of a mixed race category for FFY 2007.

7. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_WICNo

Row Name: Number enrolled in WIC

Column Name:

Year: 2010

Field Note:

Source: California Department of Public Health; Women, Infants and Children Program; Research and Evaluation Section. Unpublished data, October 2008. Data is for the period from October 2007 to September 2008.

8. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2010

Field Note:

Source: State of California, Department of Justice, Bureau of Criminal Information and Analysis, Criminal Justice Statistics Center. These data include felony and misdemeanor offenses age 19 and younger. Numerator: Adult and Juvenile Arrests Reported, 2007, Level of Offense by Race/Ethnic Group and Age. Denominator: State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail 2000-2050. Sacramento, California, July 2007.

Notes:

1. Data not available for More Than One Race Reported category.

9. **Section Number:** Form21_Indicator 09A

Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2010

Field Note:

Data Source: California Department of Education, Educational Demographics Unit. Number of Dropouts in California Public Schools, Grades 9-12 by Grade Level and Ethnicity Group, 2006-2007. Accessed 10/2/2008 at <http://dq.cde.ca.gov/dataquest/DropoutReporting/GradeEth.aspx?cDistrictName=State&cCountyCode=00&cDistrictCode=00000000&cSchoolCode=00000000&Level=State&TheReport=GradeEth&ProgramName=All&cYear=2006-07&cAggSum=StTotGrade&cGender=B>.

Rates are 1-year rates based on (the number of grade 9-12 dropouts / the number of grades 9-12 enrollments) * 100.

Notes:

1. Total count of Asians includes Asians and Filipinos.
2. Other and Unknown includes those identified as multiple race or no response.

10. **Section Number:** Form21_Indicator 09B

Field Name: HSIEthnicity_Children

Row Name: All children 0 through 19

Column Name:

Year: 2010

Field Note:

State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007. http://www.dof.ca.gov/html/Demograp/Data/RaceEthnic/Population-00-50/RaceData_2000-2050.php.

Hispanic ethnicity is reported for Hispanic group in this file. Not Hispanic or Latino includes White, Black/African American, American Indian/Native Alaskan, Asian, Native Hawaiian/Other Pacific Islander, and More Than One Race.

11. **Section Number:** Form21_Indicator 09B

Field Name: HSIEthnicity_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2010

Field Note:

Source: Current Population Survey, Annual Social and Economic Supplement, March 2008. CPS Table Creator for 2008. URL: http://www.census.gov/hhes/www/cpstc/cps_table_creator.html

Numerator: Universe, California, Ages 0-19, Persons in Male-Headed Primary Families, No Spouse Present + Universe, California, Ages 0-19, Persons in Female-Headed Primary Families, No Spouse Present

Denominator: Universe, California, Ages 0-19, Persons -- All

12. **Section Number:** Form21_Indicator 09B

Field Name: HSIEthnicity_TANFPercent

Row Name: Percent in TANF (Grant) families

Column Name:

Year: 2010

Field Note:

Numerator: Number of children ages 0 to 18 in CalWORKs assistance units during FFY 2007. California Department of Social Services, Federal Data Reporting and Analysis Bureau. Ad hoc SAS analysis completed 1/28/2009, not yet published by CDSS.

Denominator: Number of children ages 0 to 18 in CY 2007. State of California, Department of Finance. Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, CA, July 2007.

13. **Section Number:** Form21_Indicator 09B

Field Name: HSIEthnicity_MedicaidNo

Row Name: Number enrolled in Medicaid

Column Name:

Year: 2010

Field Note:

Source: California Department of Health Care Services, Medical Care Statistics Section

Notes:

1. Beneficiaries include all persons 0-19 years of age enrolled in Medi-Cal in October 2007.
2. Total Non Hispanic category includes persons grouped in the White, African American, American Indian, Asian, and More Than One Race, categories, and those categorized as Other within the Other and Unknown category.
3. Ethnicity Not Reported category includes persons grouped in the Unknown category, with no response or no valid data.

4. Medical Care Statistics Section used their MCSS Pivot tables (which come directly from the MEDS system and the 35-File claims records) for this current year. Two years ago Medical Care Statistics Section used the MIS-DSS database to arrive at the data for this indicator.

14. Section Number: Form21_Indicator 09B

Field Name: HSIethnicity_SCHIPNo

Row Name: Number enrolled in SCHIP

Column Name:

Year: 2010

Field Note:

Source: Managed Risk Medical Insurance Board, HFP Monthly Enrollment Reports, Current Enrolled for December 2008. Accessed January 12, 2009, at http://www.mrmib.ca.gov/MRMIB/HFP/Dec_07/HFPRpt5A.pdf.

Notes:

1. Total Non Hispanic includes persons grouped in the White, African American, American Indian or Native Alaskan, Asian race categories, as well as those grouped as Other under the Other and Unknown category.

2. The HFP Monthly Enrollment Report does not include a More Than One Race Reported category.

15. Section Number: Form21_Indicator 09B

Field Name: HSIethnicity_FoodStampNo

Row Name: Number enrolled in food stamp program

Column Name:

Year: 2010

Field Note:

Source: California Department of Social Services, Federal Data Reporting and Analysis Bureau. Ad hoc request, completed 12/12/2008. Data represent number of children in food stamp households during FFY 2007, in both public assistance and non-assistance households.

Note: The count of Total Not Hispanic or Latino includes White Not of Hispanic Origin, Black Not of Hispanic Origin, American Indian/Alaska Native, Asian/Pacific Islander, More Than One Race Reported, and Unknown.

16. Section Number: Form21_Indicator 09B

Field Name: HSIethnicity_WICNo

Row Name: Number enrolled in WIC

Column Name:

Year: 2010

Field Note:

Source: California Department of Public Health; Women, Infants and Children Program; Research and Evaluation Section. Unpublished data, October 2008. Data is for the period from October 2007 to September 2008.

Note: Total Not Hispanic or Latino includes White, Black/African American, American Indian/Native Alaskan, Asian, Native Hawaiian/Other Pacific Islander, More Than One Race Reported, and Other and Unknown.

17. Section Number: Form21_Indicator 09B

Field Name: HSIethnicity_JuvenileCrimeRate

Row Name: Rate (per 100,000) of juvenile crime arrests

Column Name:

Year: 2010

Field Note:

Source: State of California, Department of Justice, Bureau of Criminal Information and Analysis, Criminal Justice Statistics Center. These data include felony and misdemeanor offenses age 19 and younger. Numerator: Adult and Juvenile Arrests Reported, 2007, Level of Offense by Race/Ethnic Group and Age. Denominator: State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail 2000-2050. Sacramento, California, July 2007.

Rates are 1-year rates based on (the number of grade 9-12 dropouts / the number of grades 9-12 enrollments) * 100.

Notes:

1. Total count of Not Hispanic or Latino includes White, Black/African American, American Indian/Native American, Asian, and Native Hawaiian/Other Pacific Islander. 2.

Total count of Ethnicity Not Reported includes those identified as multiple race or no response.

19. Section Number: Form21_Indicator 10

Field Name: Metropolitan

Row Name: Living in metropolitan areas

Column Name:

Year: 2010

Field Note:

Source: Percent of the State population living in urban and rural areas from the United States Department of Agriculture, Economic Research Service, Population, Income, Education, and Employment State Fact Sheets: California.

<http://www.ers.usda.gov/statefacts/ca.htm>. Accessed October 3, 2008. Urban and rural (metro and nonmetro) definitions are based on the Office of Management and Budget June 2003 classification. Estimated number of children living in urban (metropolitan) areas was calculated as total population 0-19 minus the estimated number of children living in rural (non-metropolitan) counties. Estimated number of children living in rural counties was calculated by multiplying the estimated number of children in the state by the percent of overall state population living in rural counties.

Denominator Source: State of California, Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050. Sacramento, California, July 2007.

20. Section Number: Form21_Indicator 10

Field Name: Urban

Row Name: Living in urban areas

Column Name:

Year: 2010

Field Note:

Source: Percent of the State population living in urban and rural areas from the United States Department of Agriculture, Economic Research Service, Population, Income, Education, and Employment State Fact Sheets: California.

<http://www.ers.usda.gov/statefacts/ca.htm>. Accessed October 3, 2008. Urban and rural (metro and nonmetro) definitions are based on the Office of Management and Budget June 2003 classification.
